

Special Issue

Advancing Clinical Medicine through Artificial Intelligence (AI) and Digital Technology

Message from the Guest Editor

This groundbreaking Special Issue delves deep into the profound impact of artificial intelligence (AI) on clinical medicine, showcasing its revolutionary potential to transform healthcare practices. From early disease detection to precision treatment strategies, AI-powered solutions are changing the landscape of patient care. Cutting-edge research articles explore the integration of AI algorithms in medical imaging, assisting radiologists with faster and more accurate diagnoses. Moreover, AI-driven predictive models are being leveraged to identify at-risk patients and optimize treatment plans, resulting in improved patient outcomes and reduced healthcare costs. The Special Issue also delves into AI-enabled clinical decision support systems that aid healthcare professionals in making evidence-based choices, and ensuring safer and more efficient patient care. By highlighting the rapid advancements in AI technology, this special issue paves the way for a more patient-centric and data-driven future in clinical medicine.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
