

Special Issue

Primary and Secondary Prevention of Cancer

Message from the Guest Editor

Cancer, responsible for an estimated 24 million new cases and 10 million deaths each year, stands as the second leading contributor to the global disease burden. Preventive services are an essential component of healthcare, and their underutilization is a persistent concern in developed and developing countries.

Addressing this formidable challenge necessitates that researchers and healthcare professionals stay abreast of the latest advances and glean insights from healthcare systems worldwide. Incorporating cutting-edge tools such as digital health and big data analytics can be instrumental in the early identification of individuals at high risk of cancer.

Moreover, it is paramount to establish effective methods that provide comprehensive explanations regarding the associated risks and benefits to various stakeholders. In this Special Issue, we invite authors to submit their original research articles on the most recent developments in the primary and secondary prevention of cancer. Your contributions will play a pivotal role in enhancing healthcare practices and promoting the widespread adoption of preventive cancer services on a global scale.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief
