

## Special Issue

# Gastrointestinal Malignancies: Screening, Diagnosis, and Treatment

### Message from the Guest Editor

Gastrointestinal (GI) malignancies are a diverse group of cancers with a significant incidence and prevalence around the world. Caring for patients affected by these malignancies is complex and involves multiple disciplines. The non-specific signs and symptoms of these cancers pose a diagnostic challenge to primary care providers, which can result in delays in diagnosis. Once diagnosed, treatments are arduous, lengthy, and have a significant impact on the patient's quality of life. Due to the involvement of the digestive system, nutritional issues are common among patients and affect patients' quality of life and survival. Despite all of these issues, the changes in the treatment landscape are helping a higher number of patients be cured or live longer. It is now incumbent upon us to better understand the needs of this population, enhance and address the care delivery pathways through better diagnosis, treatment, and support, and improve the value of care delivered to these patients and populations.

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67000  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, University of  
Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1  
(General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
