

Special Issue

Clinical Outcome and Management of Gynecological Malignancies

Message from the Guest Editor

The incidence of gynecological cancer has gradually increased in recent decades, and given the fact that novel advances in the perioperative and postoperative management of various forms of cancer forms the implications for research. In this Special Issue, we seek contributions either in the form of original research articles, reviews, or shorter perspective articles on all potential fields of gynecological cancer. Suggested potential topics include but are not limited to the pre-operative management of patients, perioperative factors that affect survival rates and rates of morbidity outcomes and postoperative modes of adjuvant treatment and their impact on patient outcomes. We hope that leading experts will share their perspective on the clinical management and outcome of patients with gynecological cancer and will contribute to current knowledge with novel evidence that will provide the groundwork for further research.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi
