

## Special Issue

# Current and Emerging Treatment Options in Skull Base Surgery and Neuro-Oncology

### Message from the Guest Editors

The treatment of tumors of the skull base and of the brain presents unique challenges due to the intricate neuroanatomy of the head and potentially aggressive biological behavior of the diseases in this region. In the last two decades, several technologies have become available to neurosurgeons to increase the effectiveness of surgery, to reduce potential complications and, whenever possible, to avoid invasive procedures while achieving excellent outcomes. In this Special Issue of *Journal of Clinical Medicine*, we welcome contributions addressing new technologies and refinements of existing techniques to improve the clinical outcome of patients affected with brain and skull base tumors. The evidence may include either basic, pre-clinical or clinical data or a combination of them, as appropriate. Original research and systematic reviews will be prioritized. We look forward to receiving your contribution!

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
