

Special Issue

Clinical Updates on Psychology in Children and Adolescents

Message from the Guest Editor

Childhood and adolescence are critical stages of life, especially regarding mental health issues. This underlines the importance of reliable and early diagnoses and treatments with high efficacy. Therefore, this Special Issue focuses on improving the knowledge on innovative assessments and psychological treatments of mental health conditions in children and adolescents. In addition, it is necessary to expand our understanding of underlying mechanisms, interesting new facets, and prognoses of mental disorders in this age group. This Special Issue aims to include studies presenting a broad range of mental disorders (e.g., anxiety, depression, suicidality, eating disorders, ADHD, childhood trauma, personality disorders) and their impact on several social environments of children and adolescents (e.g., school, peer-group, parents). All original articles, clinical trials, experimental lab research, as well as systematic reviews and meta-analyses on this topic are welcome and will be equally considered for publication. I look forward to receiving your contribution to this Special Issue, enabling us to provide state-of-the-art clinical updates on the psychology of the younger ages.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!
