New Directions for Treatment and Assessment of Ulcerative Colitis

Message from the Guest Editors

Treatment options and paradigms are shifting for ulcerative colitis. Recently licensed treatment options have increased the number of choices for clinicians and patients. Treatment targets are a topic of hot debate, and ultrasound assessment offers a new option of assessing ulcerative colitis. This Special Issue invites submissions addressing these new developments and guiding clinicians how to best approach these new challenges.

About the Journal

Message from the Editor-in-Chief

Journal of Clinical Medicine (ISSN 2077-0383) is an international, peer-reviewed, open access journal dedicated to advancing clinical and preclinical research. Our Editorial Board and staff are committed to delivering cutting-edge, timely, peer-reviewed articles spanning the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and impactful research articles, as well as reviews that are clinically significant and relevant to the full spectrum of medical disciplines. All full texts are archived in PubMed Central and indexed in SCIE (Web of Science), Scopus, PubMed, and other major databases. We invite you to submit your manuscript for publication, as well as join our community as a reviewer or reader online.

Editors-in-Chief

Prof. Dr. Emmanuel Andr s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi
