

## Special Issue

# Transcatheter Aortic Valve Replacement in the Clinical Management of Heart Valve Disease

### Message from the Guest Editor

It has been over 20 years since the late Dr. Alain Cribier performed the first transcatheter aortic valve implantation (TAVI). While numerous compelling studies have been conducted and new findings are reported daily, many clinical questions remain unanswered. What is the optimal use of balloon-expandable versus self-expanding transcatheter heart valves? What new roles can imaging modalities such as CT and MRI play in preprocedural risk assessments? How can stroke prevention best be achieved with cerebral embolic protection devices? What are the optimal techniques and pre-procedural assessments for valve-in-valve procedures, including TAV-in-TAV? How can we leverage artificial intelligence to enhance the TAVI procedure? In this Special Issue, we would like to invite all researchers involved in TAVI to contribute original articles and comprehensive reviews for the further advancement of this field and to share new knowledge. Together, we will push the boundaries of TAVI, fostering further progress in the field and sharing groundbreaking insights. Please click [here](#) to find more information.

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

---

### Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
