# Hyperthermic Intraperitoneal Chemotherapy (HIPEC) in Gastrointestinal Cancers: Current Updates and Perspectives

### Message from the Guest Editors

This Special Edition is dedicated to heated intraperitoneal chemotherapy (HIPEC) in the setting of peritoneal carcinomatosis (PC). This is an important and timely topic, as the application of cytoreductive surgery (CRS) and HIPEC is increasing worldwide. We hope to provide updates on the genomic landscape of PC, immunotherapy, advances in systemic therapy, surgery, and novel approaches in chemotherapeutics during HIPEC and drug delivery itself. Recent advances offer the promise of continued success in improving outcomes for patients with PC. We hope you will enjoy this Special Issue.
