New Insights into the Management of Psoriasis and Cardiovascular Disease

Message from the Guest Editor

Psoriasis is a chronic, inflammatory, immune-mediated skin condition that significantly impacts patients' quality of life and is associated with various comorbidities. The diagnosis of psoriasis is mostly straightforward but at times it may be challenging and difficult. In the last few decades extraordinary advances in our management of psoriasis have emerged. Innovations in biologic therapies, targeted treatments, personalized medicine and combined treatment approaches have led to greater understanding of this condition and improvements in patient outcomes. New clinical procedures are continuously developing, making this specific topic always trending. Additionally, the impact of these therapies on associated cardiovascular risk in psoriasis is also being studied. This Special Issue is now open for submissions and aims to explore the latest clinical insights in the diagnosis and management of psoriasis associated cardiovascular disease based on a combination of original research and review articles. Our main objective is to improve the cardiovascular care and outcomes for patients living with this common disease.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi
