New Insights into the Management of Psoriasis and Cardiovascular Disease

Message from the Guest Editor

Psoriasis is a chronic, inflammatory, immune-mediated skin condition that significantly impacts patients' quality of life and is associated with various comorbidities. The diagnosis of psoriasis is mostly straightforward but at times it may be challenging and difficult. In the last few decades extraordinary advances in our management of psoriasis have emerged. Innovations in biologic therapies, targeted treatments, personalized medicine and combined treatment approaches have led to greater understanding of this condition and improvements in patient outcomes. New clinical procedures are continuously developing, making this specific topic always trending. Additionally, the impact of these therapies on associated cardiovascular risk in psoriasis is also being studied. This Special Issue is now open for submissions and aims to explore the latest clinical insights in the diagnosis and management of psoriasis associated cardiovascular disease based on a combination of original research and review articles. Our main objective is to improve the cardiovascular care and outcomes for patients living with this common disease.

About the Journal

Message from the Editorial Board

Journal of Clinical Medicine (ISSN 2077-0383) is an international, peer-reviewed, open access journal dedicated to advancing clinical and preclinical research. Our Editorial Board and staff are committed to delivering cutting-edge, timely, peer-reviewed articles spanning the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and impactful research articles, as well as reviews that are clinically significant and relevant to the full spectrum of medical disciplines. All full texts are archived in PubMed Central and indexed in SCIE (Web of Science), Scopus, PubMed, and other major databases. We invite you to submit your manuscript for publication, as well as join our community as a reviewer or reader online.

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France
