Clinical Advances and Challenges in Vascular and Endovascular Medicine

Message from the Guest Editor

Vascular and endovascular medicine are specialized fields of medicine that focus on the diagnosis, treatment, and management of diseases affecting the blood vessels. Recent clinical advances in vascular imaging technologies, such as CT angiography and magnetic resonance imaging (MRI), have improved the accuracy of diagnosis, allowing for earlier detection and treatment of vascular disease. However, these advances have also brought challenges, include the development of better preventative measures and more effective treatments for vascular diseases such as arterial aneurysms, peripheral artery disease, and venous thromboembolism. Addressing these challenges will require continued innovation, research, and collaboration among practitioners in these fields. We look forward to your enthusiastic participation in this Special Issue that will promote scientific communication of our knowledge with the ultimate goal of positively influencing treatment and care for our patients. About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2024).
