

Special Issue

Current Concepts in Diagnosis and Therapy of Aortic Valve Disease

Message from the Guest Editors

This Special Issue on "Current Concepts in Diagnosis and Therapy of Aortic Valve Disease" aims to encapsulate the latest advancements and ongoing challenges in the field. With the rapid evolution of diagnostic imaging techniques and therapeutic interventions, this issue seeks to provide a comprehensive overview of current research and clinical practices. Our primary goal is to bridge the gap between innovative research findings and clinical applications, thereby enhancing patient outcomes.

The core problems to be addressed include improving the accuracy of early diagnosis, including the problem of low-flow stenosis, novel insights into prevention strategies, optimizing patient-specific treatment plans, optimizing procedural outcomes, and minimizing procedural risks. The scope of this Special Issue will encompass a wide range of topics, including imaging modalities, advancements in surgical and transcatheter interventions, and long-term management strategies.

We aim to mobilize contributions from leading researchers, clinicians, and interdisciplinary teams to foster a robust discussion and dissemination of cutting-edge knowledge.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
