

Special Issue

Advances in Clinical Rheumatology

Message from the Guest Editor

We are pleased to introduce this Special Issue on “Advances in Clinical Rheumatology”, a collection of research and insights into the field of rheumatology. The study of rheumatoid arthritis highlights novel therapeutic strategies and emerging concepts in pathogenesis, and we seek to investigate the unique clinical presentations and the challenges in the management of peripheral spondyloarthritis. Papers about interventional procedures, such as radiofrequency ablation and transcatheter arterial embolization, or those covering metabolic bone diseases, from osteoporosis to rarer disorders, are also welcome. With these aims in mind, we will provide insights into new diagnostic modalities and therapeutic interventions for patients with complex regional pain syndrome (CRPS), a perplexing and often debilitating condition. With this Special Issue we will contribute to the dynamic and ever-advancing field of clinical rheumatology, and we are confident it will inspire continued progress in our understanding and treatment of these challenging conditions.

Guest Editor

Dr. Jacopo Ciaffi

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr s

Internal Medicine Department, University Hospital Strasbourg, 67000
