

Special Issue

Ultrasound Technology in Internal Medicine: Current and Emerging Issues

Message from the Guest Editors

The ultrasound is currently considered the “fifth pillar” of a patient’s clinical evaluation. New methods are emerging alongside the traditional ultrasound, such as elastosonography, fatty liver quantification, contrast enhanced ultrasound (CEUS), and fusion imaging. These methods, which can help physicians to better define clinical scenarios, can also be used as support for invasive procedures. The present Special Issue, “Ultrasound Technology in Internal Medicine: Current and Emerging Issues”, welcomes submissions in this field addressing how an ultrasound-based approach can improve patient management and outcome.

Researchers of all affiliated disciplines with a focus on basic research or patient care are invited to submit original articles or reviews in their area of expertise to enhance the awareness of interdisciplinarity in modern internal medicine.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
