Advances in Gynecological Laparoscopic Surgery

Message from the Guest Editor

Laparoscopic gynecological surgery is characterized by rapid progress and implementation in all subspecialties of modern gynecology. Gynecologic oncology, urogynecology as well as reproductive surgery have greatly benefitted, in many aspects, from the growing performance of laparoscopic techniques. However, there have also been recent publications demonstrating detrimental effects in certain cases and diseases, such as cervical cancer. Therefore, the discussion on the advantages and disadvantages of laparoscopy in gynecologic surgery is always of great scientific merit and clinical impact. For the present Special Issue, this is a call for papers, either original or reviews, aiming to highlight modern advances, comparative advantages, potential harms, fields for further research, and dilemmas and controversies of implications of laparoscopy in all spectra of gynecological surgery, from infertility to oncology, and from urogynecology to benign gynecology and even to hysteroscopy treatment.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of
Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
