

Special Issue

Clinical Advancements in Foot and Ankle Surgery: 2nd Edition

Message from the Guest Editor

It is our pleasure to invite you to contribute to this Special Issue entitled “Clinical Advancements in Foot and Ankle Surgery: 2nd Edition”. This is a new volume building on the success of the first edition, in which six papers were published (for more details on the first edition of this Special Issue, please visit the following link: https://www.mdpi.com/journal/jcm/special_issues/91GRD7UULQ). In this Special Issue, we welcome authors to submit articles about the debatable topic of forefoot deformity, hindfoot biomechanics, ankle fracture, ligament injury, the diabetic foot, flat feet, and arthritis. In this Special Issue, we hope to add to the research and treatment of foot and ankle problems by updating the knowledge and ideas that are still being debated.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!
