Advancements in Gait Rehabilitation: Innovative Approaches and Clinical Insights

Message from the Guest Editors

This Special Issue focuses on cutting-edge advances in gait rehabilitation, with the aim of highlighting innovative treatment strategies, emerging technologies, and evidence-based clinical practice. Gait disorders have a significant impact on mobility and quality of life in diverse patient populations, including those with neurological, musculoskeletal, and age-related conditions. Recent innovations such as early mobilization in the ICU, robot-assisted training, virtual reality environments, wearable sensors, and AI-driven feedback systems are revolutionizing gait disorder assessments and intervention approaches. Furthermore, personalized, data-driven treatment plans are improving treatment outcomes and promoting long-term recovery. This Special Issue invites the submission of papers that explore multidisciplinary perspectives, clinical trials, and the implementation of novel protocols. By blending technological innovations and clinical insights, this Special Issue aims to advance both research and practice in gait rehabilitation.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
