

## Special Issue

# Immune Microenvironment in Solid and Hematological Malignancies

### Message from the Guest Editor

The aim of this issue is to provide an overview of current knowledge on the crucial mechanisms promoting tumor niche interactions and mediating immunosuppression during cancer development and progression. Despite significant improvements in therapy during the last decade, most cancer patients develop refractory disease over time. Treatment of refractory malignancy is a major challenge, likely due to the still poorly characterized inter- and intratumor heterogeneity and the complex interplay of neoplastic cells with the tumor microenvironment. In particular, there is an urgent need to unravel how these features of the cancer neighborhood are linked to molecular mechanisms of drug resistance and aggressive phenotype. As is now well known, tumors grow and evolve through a constant crosstalk with the surrounding milieu, and emerging evidence indicates that several gatekeepers and immune-tolerogenic environments frequently occur simultaneously in response to this crosstalk. Accordingly, strategies combining anti-tumor therapy and immunotherapy seem to hold the promise to tip the balance of the cancer niche and improve patient outcomes. I look forward to collaborating with you.

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Editors-in-Chief

Prof. Dr. Emmanuel Andr s

Internal Medicine Department, University Hospital Strasbourg, 67000  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, University of  
Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1  
(General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
