

Special Issue

Advances in Interventional Cardiology and Heart Valve Disease Management

Message from the Guest Editor

It is no coincidence that a heart surgeon has decided that he wants to be the Editor of a Special Issue on interventional cardiology and heart valve disease management. In fact, the cardiac surgery world must move ever closer to the cardiological/interventional world in order to provide more and more "shared" choices. In fact, in my opinion, the true "advances" in the management of valve diseases must follow two fundamental principles. The first is the concept of the "heart team", which must be increasingly structured and present in the debate on all patients. Second, in the future, centers must be created that specialize in the exclusive treatment of valvulopathies in order to concentrate patients and guarantee "high volumes" and the most advanced and tailored treatments for patients.

Guest Editor

Dr. Giuseppe Santarpino

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of
Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
