

Special Issue

New Insights into Cardiovascular and Minimally Invasive Cardiac Surgery

Message from the Guest Editors

Cardiac surgery, on the one hand, has reached very respectable standards in established fields like coronary artery bypass grafting and valve surgery, while other fields, like aortic arch surgery, do profit from dynamic changes. Overall, cardiac surgery continues to offer very sustainable therapies to patients, which represents its most significant advantage over interventional therapies. On the other hand, the further development of the Heart Team has led to very precise definitions of the most suitable therapy for individual patients. We encourage our colleagues to contribute to this Special Issue, which is meant as a platform for displaying the latest developments and established strategies in cardiac surgery.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi
