Neurological Vistas: Cerebrovascular Focus

Message from the Guest Editor

Of all the areas in the field medicine, the brain is perhaps one of the most revered organs, as it is the command center for the body. Any injury to the brain, whether from trauma or disease, profoundly impacts the patient. Indeed, stroke afflicts more than 12 million people worldwide, with more than 1.9 million neurons lost for every minute the brain experiences a stroke, while brain injury affects millions of people worldwide. In this Special Issue, we welcome papers with a cerebrovascular focus, specifically as they relate to stroke and brain injury in terms of outcomes, prognosis, and treatment. We welcome all types of academic papers, including clinical registries, clinical trials, survey reports, and systematic or scoping reviews.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi
