

Special Issue

Review Special Issue Series: Paradigm, Advances, and Future Directions in Oral Medicine

Message from the Guest Editor

Advances in the field of oral medicine are remarkable. However, research is still needed in many areas of oral medicine, such as potentially malignant disorders, dermatologic diseases of the oral cavity and orofacial pain. The development and advancement of diagnostic techniques, many of them minimally invasive, and treatments have led to improved diagnoses and quality of life. In this Special Issue, we invite authors to present papers on clinical advances in oral medicine diagnostics and treatment.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr s

Internal Medicine Department, University Hospital Strasbourg, 67000
