

Special Issue

Emergency Medicine: Oral and Maxillofacial Surgery

Message from the Guest Editors

Important improvements have been made in recent years in the management of emergencies in dentistry and maxillofacial surgery. Traumatology is still, today, the main cause of maxillofacial traumatic emergencies, and the management of facial, maxillofacial and ENT fractures is extremely important. The proper management of dental and dentoalveolar fractures, as well as traumatic avulsions and re-implantations/autotransplants, still represents a challenge today. From a dental point of view, extremely invasive surgical procedures, such as zygomatic implants in the treatment of severe bone atrophy of the upper jaw, can cause intra-surgical zygomatic fractures or even fractures of the orbital floor and invasion of noble areas. We encourage the submission of scientific articles from clinicians and researchers, systematic reviews, narrative reviews, case reports and any scientific contribution that can enrich understanding of this relevant issue.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi
