

## Special Issue

# Interventional Therapeutic Advances in Conduction System Pacing: Tools, Experiences, Results and Follow-Up

### Message from the Guest Editors

Conduction system pacing (CSP) is the cornerstone treatment of selected patients, and it is a new option which is used for ventricular stimulation. It has emerged as an alternative to conventional right ventricular pacing. CSP has recently emerged as an alternative or bailout strategy of biventricular pacing to obtain cardiac resynchronization therapy. CSP is a technique of pacing that involves the implantation of permanent pacing, which leads towards different sites of specialized cardiac conduction systems. This includes His bundle pacing and left bundle branch pacing. With this Special Issue, we aim to elucidate the CSP approach to cardiac pacing. In this regard, we encourage researchers to submit their work on the following key aspects of CSP: tools, differences between lumenless fixed screw and stylet-driven leads, and adaptation to the characteristics of any candidate. We encourage contributions from tools and tailored patient approaches to the integration with an electro-anatomical mapping system and CRT strategy based on CSP.

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1  
(General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
