Oral and Maxillofacial Surgery: Current Progress and Future Directions

Message from the Guest Editors

Oral and maxillofacial surgery (OMFS) is a rapidly evolving specialty that integrates medicine and advanced surgical techniques to diagnose and treat diseases affecting the face, jaws, and oral cavity. Recent progress in the field has been driven by technological innovation, improved biomaterials, and a growing emphasis on patient-centered care. The purpose of this Special Issue on “Oral and Maxillofacial Surgery: Current Progress and Future Directions” is to provide a comprehensive platform for the dissemination of cutting-edge research, innovative techniques, and critical insights shaping the evolution of oral and maxillofacial surgery (OMFS). As a dynamic and interdisciplinary specialty, OMFS continues to advance through the integration of emerging technologies, novel biomaterials, and evidence-based clinical practices. This Special Issue aims to capture these developments and highlight their implications for both current practice and future innovation.

Guest Editors

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's (JCM)* staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of
Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
