Periodontology and Dental Implants: State of the Art and Future Perspectives

Message from the Guest Editors

Periodontology and dental implantology have undergone remarkable evolution over the past decades, driven by advances in biomaterials, regenerative strategies, digital technologies, and an improved understanding of host–microbe interactions. Today, the interplay between periodontal health and implant success is more evident than ever, with emerging concepts highlighting the critical role of precision diagnostics, personalized treatment planning, and long-term maintenance. Despite significant achievements, clinical and biological challenges remain, including peri-implant diseases, patient-specific risk factors, and the integration of new technologies into daily practice.

This Special Issue aims to provide a comprehensive platform for disseminating cutting-edge research, critical reviews, and innovative clinical approaches in this rapidly advancing field. Contributions will address key topics such as tissue regeneration, implant surface modifications, digital workflows, risk assessment models, microbiome studies, and novel therapeutic strategies for peri-implantitis.

Guest Editors

Prof. Dr. Magda Mensi

1. Section of Periodontics, School of Dentistry, Department of Surgical Specialties, Radiological Science and Public Health, University of Brescia, Brescia, Italy
2. U.O.C. Odontostomatologia - ASST degli Spedali Civili di Brescia, Brescia, Italy

Dr. Davide Farronato

Department of Medicine and Technological Innovation, Research Center of Innovative Technology and Engineered Biomaterial, University of Insubria, 21100 Varese, Italy

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
