

Special Issue

Acute Coronary Syndromes: From Diagnosis to Treatment

Message from the Guest Editors

We are pleased to invite you to contribute to the Special Issue “Acute Coronary Syndrome: From Diagnosis to Treatment” in the *Journal of Clinical Medicine*. Acute Coronary Syndrome (ACS) remains one of the leading causes of morbidity and mortality worldwide, presenting ongoing challenges in early diagnosis, effective treatment, and long-term management. Recent advancements in biomarker research, imaging modalities, and interventional techniques have significantly transformed ACS management, yet many gaps remain. This Special Issue aims to collect high-impact research and comprehensive reviews that address these gaps, providing insights into innovative diagnostic strategies, novel therapeutic approaches, and multidisciplinary management frameworks. We seek to foster collaboration and share advancements that can shape clinical practices and improve patient outcomes. **Keywords:** acute coronary syndrome; diagnosis; biomarkers; interventional cardiology; imaging; pharmacotherapy; patient management; health systems; special populations; clinical trials

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPLus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
