

Special Issue

Current Challenges in Clinical Dentistry

Message from the Guest Editors

The development of medical technology is rapidly advancing and all medical researchers and practitioners need to learn the latest techniques and acquire current knowledge, resulting in the acquisition of practical clinical ability. This Special Issue aims to provide readers with insight into a new era of diagnosis and treatment in the dental field and inform them of new technologies and materials in pre-clinical and clinical dentistry that may make the impossible possible. We are willing to publish articles relevant to many related dental specialties. The essential requirement of this Special Issue is that all submitted articles include a challenging hypothesis, with significant positive and negative results both welcomed. It is our pleasure to invite you to submit a manuscript for this Special Issue. Full papers, communications, and reviews are all welcome.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief
