New Advances in Procedures for the Diagnosis and Treatment of Cardiovascular Disease

Message from the Guest Editors

Cardiovascular disease (CVD) remains a leading cause of morbidity and mortality worldwide, necessitating continuous innovation in diagnostic and therapeutic procedures. This Special Issue aims to explore cutting-edge advancements that address the most pressing challenges in cardiovascular medicine, from early diagnosis to improved treatment strategies. The focus will be on emerging technologies, minimally invasive interventions, and novel imaging modalities that enhance precision medicine in CVD management. Core problems include improving diagnostic accuracy in complex cases, personalizing treatment approaches, and reducing procedural risks and complications. Contributions are encouraged from various disciplines, including cardiology and radiology, to provide a multidisciplinary perspective. By showcasing recent advancements, this Special Issue seeks to mobilize collaboration among researchers, clinicians, and industry leaders to accelerate the integration of novel procedures into clinical practice. The ultimate goal is to improve patient outcomes and address the global burden of cardiovascular disease through innovation and evidence-based practices.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of
Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPLus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
