

Special Issue

New Insights in Ophthalmic Surgery

Message from the Guest Editor

Ophthalmic surgery has evolved continuously in the past decade. Thus, novel technologies and new surgical techniques enable the more efficient rehabilitation and preservation of vision and the eye. An expansion of indications for surgeries and technologies that better assess the primary condition and the follow-up open new avenues for patients. Accordingly, many new horizons are opening, allowing the promotion and rehabilitation of vision function, along with improvements in the quality of life of these patients. Accordingly, a Special Issue called “New Insights in Ophthalmic Surgery” is announced. This Special Issue is calling for original research and reviews that have investigated new surgical methods of ophthalmic surgery, novel techniques, outcomes and safety, modifications and improvements of previously used procedures, and decision-making guidelines.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi
