

Special Issue

Thoracic and Thoracoabdominal Aortic Pathologies

Message from the Guest Editor

Following the widespread use of endovascular aneurysm repair, improvements in techniques and materials have enabled us to tackle increasingly complex pathologies and to expand the spectrum of minimal invasive repair step-by-step to the thoracoabdominal and thoracic aorta up to the level of and beyond the aortic arch. Despite our increasing experience with these elaborate techniques, many open questions remain, regarding the use of open or endovascular repair, off-the-shelf or custom-made solutions, physician-modified devices, use of bridging devices and overall patient selection. Following the success of our Special Issue on the 'Pathogenesis and Treatment of Abdominal Aortic Aneurysm', it is my honor to invite you to explore the current treatment options and innovative concepts, for the Special Issue entitled '**Thoracic and Thoracoabdominal Aortic Pathologies**'. Our goal is to offer new insights in a field that is considered by many as the final frontier of vascular surgery, which requires an individualized approach and tailor-made solutions that exemplify the concept of precision vascular medicine. Welcome to contribute.

Guest Editor

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
