

Special Issue

Clinical Management of Platelet Disorders

Message from the Guest Editors

Disorders of platelet number and function impact patients in various ways. They can leave patients at risk of bleeding or thrombosis, and also affect patients' quality of life. Regarding these diseases, there have been recent changes in the diagnostic tools and therapeutic approaches used, and these changes are also impacting patients. We are looking to publish a Special Issue in the Journal of Clinical Medicine dedicated to topics surrounding platelet disorders. We encourage the submission of articles including, but not limited to, the following: immune thrombocytopenia (ITP), thrombotic microangiopathies, congenital (or pediatric) thrombocytopenia, thrombocytosis, heparin-induced thrombocytopenia or vaccine-induced thrombotic thrombocytopenia. We encourage you and your colleagues to submit your latest research or reviews related to the diagnosis, differential diagnosis, treatment, and any issues surrounding the management of patients with platelet disorders.

Guest Editors

Dr. Deirdra R. Terrell

Department of Biostatistics and Epidemiology, Hudson College of Public Health, University of Oklahoma Health Sciences Center, Oklahoma City, OK 73104, USA

Dr. Marshall A. Mazepa

Division Hematology and Oncology, University of Minnesota School of Medicine, Minneapolis, MN 55455, USA

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
