

## Special Issue

# Current Progress in the Treatment of Cornea and Ocular Surface Diseases

### Message from the Guest Editors

This Special Issue will gather original research, both experimental and clinical, focusing on novel diagnostic and therapeutic approaches to disorders associated with ocular surface diseases and corneal pathologies, thereby advancing our understanding in this domain. We particularly encourage submissions that introduce innovative diagnostic methodologies, treatment strategies, and surgical techniques, with the objectives of enhancing diagnostic accuracy and optimizing therapeutic outcomes. We welcome original research articles, reviews, and prospective/retrospective studies.
