

Special Issue

Current Progress in the Treatment of Cornea and Ocular Surface Diseases

Message from the Guest Editors

This Special Issue will gather original research, both experimental and clinical, focusing on novel diagnostic and therapeutic approaches to disorders associated with ocular surface diseases and corneal pathologies, thereby advancing our understanding in this domain. We particularly encourage submissions that introduce innovative diagnostic methodologies, treatment strategies, and surgical techniques, with the objectives of enhancing diagnostic accuracy and optimizing therapeutic outcomes. We welcome original research articles, reviews, and prospective/retrospective studies.

Guest Editors

Dr. Marco Messina

Department of Medicine and Surgery, Ophthalmology Section, S. Maria della Misericordia Hospital, University of Perugia, Perugia, Italy

Prof. Dr. Giuseppe Giannaccare

Eye Clinic, Department of Surgical Sciences, University of Cagliari, Cagliari, Italy

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!
