

Special Issue

Latest Advances in Lower Urinary Tract Symptoms and Pelvic Floor Dysfunction Diseases

Message from the Guest Editors

This Special Issue aims to address the pressing issues surrounding female lower urinary tract symptoms (LUTSs), including pelvic organ prolapse (POP) and urinary incontinence (UI). Despite significant advancements in research, there remain core problems to be solved, such as understanding the multifactorial etiology of these conditions, improving diagnostic accuracy and refining treatment modalities to enhance patient outcomes. The scope of this Special Issue encompasses a broad array of topics, including, but not limited to, epidemiology, pathophysiology, risk factors, diagnostic techniques, treatment strategies and patient outcomes related to female LUTSs. By mobilizing contributions from diverse research disciplines, including gynecology and obstetrics, urology, physiotherapy, general surgery and basic science, this Special Issue seeks to foster interdisciplinary collaboration and knowledge exchange, ultimately advancing our understanding and management of these complex and prevalent conditions in women.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
