

Special Issue

Recent Advances in Spine Tumor Diagnosis and Treatment

Message from the Guest Editor

This Special Issue provides a comprehensive overview of the latest advancements in the field of spine tumor diagnosis and treatment. Highlighting critical developments in spinal tumor management, the issue explores innovative approaches to diagnosing and treating spinal metastases, pathologic fractures, and cord compression. It delves into the evolving role of the surgeon, the integration of radiotherapy, and the importance of interdisciplinary collaboration between surgeons, medical oncologists, and radiologic oncologists. Additionally, the issue addresses the psychological aspects and pain management strategies essential for improving patient outcomes. Through cutting-edge research and expert insights, this edition aims to enhance understanding and foster advancements in spine tumor care.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi
