

## Special Issue

# Clinical Application of Physical Therapy in Neurorehabilitation: 2nd Edition

### Message from the Guest Editors

The field of physical therapy has gained new perspectives for the treatment of motor disorders after central nervous system lesion (i.e., stroke, multiple sclerosis, traumatic brain injury, spinal cord injury). Both conventional and technology-aided interventions (e.g., robotics, virtual reality, non-invasive brain stimulation, telerehabilitation) have been proposed to restore motor functions, activities, and quality of life, with promising effects primarily observed in stroke patients thus far. The aim of this Special Issue is to address a wide range of possible interventions in neurorehabilitation, both traditional and technologically supported, with a particular focus on the influence of relevant ingredients (dose, intensity, engagement, feedback used, quality of movement) on functional and global outcomes. Moreover, the relevance of the rehabilitation setting (rehabilitation hospital, nursing skilled facility, clinic, home) will be covered, with the aim of exploring all the potential contributors along a lifespan, including the long-term management of motor disabilities and the promotion of self-management and empowerment of patients and caregivers in the recovery process.

### Guest Editors

Dr.  Sofia Straudi

1. Department of Neuroscience and Rehabilitation, University of Ferrara, 44121 Ferrara, Italy  
2. Unit of Rehabilitation Medicine, University Hospital of Ferrara, 44124 Ferrara, Italy

Prof. Dr. Roberto Cano de la Cuerda

Department of Physical Therapy, Occupational Therapy, Rehabilitation and Physical Medicine, Faculty of Health Sciences, Universidad Rey Juan Carlos, 28922 Madrid, Spain

### Deadline for manuscript submissions

closed (30 June 2025)

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, University of  
Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1  
(General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
