New Insights in Laparoscopic Surgery

Message from the Guest Editor

Minimally invasive surgery has made remarkable progress; today not only laparoscopic surgery but also robotic surgery has become widespread. Minimally invasive treatment of organs such as the hepatobiliary and pancreatic organs, which were previously difficult to treat by laparoscopy or robotic surgery, is now possible, and new knowledge such as microanatomy has been obtained in gastrointestinal surgery. In such an era, we invite you to participate in this Special Issue entitled "New Insights in Laparoscopic Surgery" to discuss new techniques, microanatomy, and postoperative outcomes of robotic and laparoscopic surgery from a wide range of fields, including gynecology and urology. In addition, comparisons between robotic and laparoscopic surgery are also welcome.

Guest Editor

Dr. Kentaro Iwaki

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
