

## Special Issue

# Clinical Advances, Opportunities, and Challenges in Digestive Diseases of the Foregut

### Message from the Guest Editors

The progress in dietary, endoscopic, and surgical interventions addressing the ever-growing burden of both benign and malignant foregut diseases over the last decade has been unparalleled. From gut microbe-derived biotherapeutics aimed at modulating obesity and metabolic disease—arguably the most important diseases of our generation—to novel endoscopic approaches treating much rarer conditions such as gastroparesis and achalasia, these innovations have expanded our fundamental understanding and treatment options in the field of foregut diseases. For this Special Issue, we welcome the submission of papers on clinical advances, opportunities, and challenges in digestive diseases of benign foregut diseases, including, but not limited to, obesity, gastroparesis, achalasia, and reflux. We welcome your submissions and look forward to working with you to advance the field of foregut diseases through innovation and collaboration.

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of  
Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPLus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
