

## Special Issue

# Mechanisms, Diagnosis, and Therapy of Microvascular Dysfunction in Heart Diseases: Towards Precision Medicine from Bench to Bedside and Beyond

### Message from the Guest Editors

In the past two decades, coronary microvascular dysfunction (CMD) has emerged as a key feature of many clinical conditions: in some instances, these abnormalities represent epiphenomena, whereas in others, they represent risk markers or be involved in the pathogenesis of myocardial diseases. According to the classical clinical classification proposed by Crea F and Camici P, CMD can be classified into four types: dysfunction occurring in the absence of epicardial coronary artery and myocardial diseases, dysfunction in the presence of myocardial diseases, dysfunction in the presence of obstructive epicardial coronary artery diseases, and iatrogenic dysfunction. Importantly, these presentations are not at variance and might coexist. The purpose of this Special Issue is to highlight not only the current knowledge regarding the mechanisms, diagnosis, and treatment of CMD, but also explore putative clinical and biological markers, and evaluate novel therapeutic strategies in this field.

### Guest Editors

Dr. Domenico D'Amario

Department of Cardiovascular and Thoracic Sciences, Fondazione Policlinico Universitario A Gemelli IRCCS, Rome, Italy

Dr. Francesco Canonico

Department of Cardiovascular Science, Catholic University of the Sacred Heart, Rome, Italy

### Deadline for manuscript submissions

closed (25 December 2021)

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

---

### Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
