

Special Issue

Medical Management in Tuberculosis: Current Updates and Perspectives

Message from the Guest Editor

In this issue on the medical management of tuberculosis, we encourage submissions on any of these topics. We are specifically interested in studies that address the optimal use of new drugs and/or treatment regimens, host-directed therapies, and/or the unique treatment needs of the special populations listed above. Studies can include those that report on original unpublished research or systematic reviews. We aim to provide a topical update on recent advances in the medical management of TB and to highlight research that addresses outcomes among populations at especially high risk for poor responses to therapy.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief
