

## Special Issue

# Clinical Advances in Metabolic Syndrome and Kidney Disease

### Message from the Guest Editors

Metabolic syndrome and chronic kidney disease are two major public health problems. Metabolic syndrome is the constellation of risk factors related to cardiovascular disease, including insulin resistance or hyperglycemia, dyslipidemia, hypertension, and obesity. Metabolic syndrome is associated with an increased risk of cardiovascular disease, stroke, and all-cause mortality in the general population. Chronic kidney disease is increasingly recognized as a significant global public health problem, affecting about 10% of the population worldwide. It causes cardiovascular disease, premature mortality, reduced quality of life, and increased healthcare costs. The aim of this Special Issue is to provide updated evidence on the associations of metabolic syndrome and kidney disease, focusing on epidemiological data, pathophysiology, diagnosis, interventional approaches, and prognostic evaluation. Original research articles, systematic reviews, and focused review articles on this topic are welcomed.

### Guest Editors

Dr. Amanda Ying Wang

The Renal and Metabolic Division, The George Institute for Global Health, University of NSW, Sydney, Australia

Prof. Dr. Li Zuo

Department of Nephrology, Peking University People's Hospital, Beijing, China

### Deadline for manuscript submissions

closed (20 March 2023)

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
