

## Special Issue

# Contribution of Imaging in Myocarditis: Current and Upcoming Status

### Message from the Guest Editor

Myocarditis is a myocardial disease that is difficult to diagnose positively, etiologically, prognostically, and pre-therapeutically. Many questions remain concerning the characterization of the damage, the risk of recurrence, and the short- and long-term therapeutic management using modality imaging. This is the case, for example, in myocarditis induced by immunotherapy or those encountered during viral or autoimmune inflammatory processes, opening up a real clinical challenge. In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following:

- Recent and new techniques in MRI for myocarditis
- Recent and new techniques in CT, spectral CT for myocarditis
- Recent and new techniques in PET-MRI, PET-CT for myocarditis
- Diagnostic and prognostic performances of imaging modalities
- Management guided by medical imaging

---

### Guest Editor

Dr. Salim Si-Mohamed

1. Department of cardiovascular and thoracic radiology, Louis Pradel Hospital, Hospices Civils de Lyon, 59 Boulevard Pinel, 69500 Bron, France  
2. CREATIS, UMR 5220, Univ Lyon, INSA Lyon, University Claude Bernard Lyon 1, Lyon, France

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

---

### Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of  
Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1  
(General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
