

## Special Issue

# Minimally Invasive Heart Surgery

### Message from the Guest Editor

We are experiencing an era of remarkable development in cardiac surgery, with TAVI setting the ball rolling around 20 years ago. Some might see the development over the past decade as a rivalry or a threat, but others might see it as an opportunity. This external (percutaneous) pressure has translated into a profound change in everyday cardiac surgery. In 2007, the year before the broader clinical implementation of TAVI, the proportion of minimally invasive aortic valve procedures was minor at less than 5%. It was only after TAVI's use in aortic valve therapies began to increase that progress became necessary. The proportion of minimally invasive aortic valve surgeries was close to 40% in Germany in 2021. Today, there are many possibilities: risk-adjusted hybrid strategies; minimally invasive access routes for valve surgery; CABG, or even assisted surgery; less invasive cannulation and perfusion strategies; and patient-orientated individualized treatment concepts. This Special Issue welcomes all innovative and future-orientated ideas, whether they are techniques, strategies or innovative conceptual approaches.

### Guest Editor

Prof. Dr. Manuel Wilbring

Department of Cardiac Surgery, University Heart Center, Dresden, Germany

### Deadline for manuscript submissions

closed (20 October 2024)

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
