

## Special Issue

# Recent Research Progress in Pediatric Orthopedic Surgery

### Message from the Guest Editors

Pediatric orthopedic medicine is a subspeciality that covers a wide variety of rare disorders, such as congenital deformities, skeletal dysplasia, and metabolic bone diseases, as well as conditions that affect many children and adolescents worldwide, such as scoliosis, hip dysplasia, limb alignment issues, foot deformities, or pediatric trauma. Clinical studies still represent the most important tool in understanding the long-term effects of treatments and newly evolving techniques. On the other hand, basic research is essential in the development of new targeted and genetic therapies, which could be game-changing in many congenital conditions. This Special Issue will focus on pediatric orthopedic surgery, offering a comprehensive overview of exciting research in this field, with the ultimate goal of improving orthopedic care in children and adolescents.

### Guest Editors

Dr. Catharina Chiari

Department of Pediatric Orthopedics and Foot Surgery, Orthopedic Hospital Speising, 1130 Vienna, Austria

Dr. Madeleine Willegger

Department of Orthopedics and Trauma Surgery, Medical University of Vienna, Waehringer Guertel 18-20, 1090 Vienna, Austria

### Deadline for manuscript submissions

25 December 2025

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

---

### Editors-in-Chief

Prof. Dr. Emmanuel Andr s

Internal Medicine Department, University Hospital Strasbourg, 67081  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of  
Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1  
(General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
