

Special Issue

The Changing Landscape of Biliary Cancers

Message from the Guest Editor

This Special Issue aims to capture the rapidly evolving landscape of biliary cancers by bringing together cutting-edge research and expert perspectives from around the world. Topics of interest include novel systemic therapies, surgical and locoregional innovations, molecular profiling and target discovery, real-world outcomes, and collaborative care models. We particularly welcome submissions that bridge laboratory science with clinical application, highlight global disparities, or propose forward-thinking strategies for prevention, diagnosis, and survivorship.

As , I am a Medical Oncologist specialising in biliary tract cancers at a leading university hospital, where I also serve as Principal Investigator for major national and international cholangiocarcinoma trials. Additionally, I hold an Honorary Professorship and maintain strong academic collaborations with university-based cholangiocarcinoma research teams. It is my privilege to curate this Special Issue and foster meaningful dialogue across disciplines to accelerate progress for patients affected by these complex diseases.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
