# The Current Status and Future Directions of Pancreatoduodenectomy and Pancreatectomy

### Message from the Guest Editors

Since pancreatic resections began in the late 19th century, pancreatic surgery has continually evolved. Pancreatoduodenectomy and other pancreatectomies remain central to pancreatic surgery worldwide. Advances in surgical techniques have led to various modifications of these procedures, now standard tools for surgeons. As pancreatic surgery advances and evidence accumulates, the role and extent of lymphadenectomy in the context of pancreatic resection may be variable according to the underlying indication, while oncological aspects remain crucial to achieve optimal clearance in the case of malignancy as an indication. More recently, minimally invasive techniques and their rapid uptake raise great promise for the future of pancreatic surgery. In this SI, we are seeking valuable contributions in the form of original research, systematic reviews, meta-analyses and comprehensive review articles to enlighten technical and non-technical aspects of pancreatoduodenectomy and other forms of pancreatectomy in the current era, but also to explore the future directions of resectional pancreatic surgery.

### Guest Editors

Dr. Vasileios K. Mavroeidis  
Dr. Samir Pathak  
Prof. Dr. Somaiah Aroori

### Deadline for manuscript submissions

25 July 2026

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of  
Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
