

## Special Issue

# Atrial Fibrillation: Advances in Diagnosis and Contemporary Management Strategies

### Message from the Guest Editor

Dear colleagues, Atrial fibrillation (AF) is being increasingly recognized as the cardiovascular epidemic of the 21st century, impacting millions globally. Given its association with an increased risk of stroke, heart failure and mortality, an early diagnosis and effective management of AF are paramount. Over the past decade, significant advancements have been achieved in the field of AF, from innovative diagnostic tools that facilitate early detection, to changes in the paradigm of AF management, favoring patient-tailored rhythm control management to improve patient outcomes. In parallel, cutting-edge technologies that revolutionized AF management procedures, including novel electro-anatomical mapping systems, advanced ablation catheters and techniques and left atrial appendage occlusion devices, have been transforming patient care in the last two decades. This Special Issue aims to explore the most recent advancements in the diagnosis and treatment of atrial fibrillation. Researchers in the field of atrial fibrillation are encouraged to submit original articles or reviews to this Special Issue.

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
