

Special Issue

Pregnancy Management of Preeclampsia

Message from the Guest Editors

The aim of this Special Issue is to present an updated approach to clinical issues around pregnancy complicated by preeclampsia with special focus on diagnosis, clinical management, complications, timing, and mode of delivery. Clinical researchers, gynecologists–obstetricians, and maternal–fetal medicine specialists are welcomed to submit their works that contribute to improve pregnancy outcomes in preeclamptic women and lowering maternal and fetal mortality and morbidity. Thus, all original research articles or reviews on topics related to pregnancy in women with preeclampsia and HELLP syndrome are welcome in this Special Issue. Topics will include:

- Clinical management of preeclampsia, eclampsia, and severe hypertension in pregnant women—diagnosis, complications, surveillance, mode of delivery.
- HELLP syndrome—diagnosis, emergency management, timing and mode of delivery, surveillance. Corticosteroid therapy—advantages and disadvantages.
- Preeclampsia—complications such as acute kidney insufficiency, eclampsia seizures, pulmonary oedema, and fetal growth restriction.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!
